

Book Recommendation - Ms Wu Oi Lam

Title:	Crafty Science : More than 20 sensational STEAM Projects to Create at Home
Author:	Jane Bull
Publisher:	DK Publishing
Target:	P1-3 students
Sharing:	<p>Do you like science? Do you like doing experiments and creating things? If you do, then this book is for you. This crafty science book introduces over 20 STEAM activities for children to do at home, such as making Crafty boats, creating a Domino run, making a Sun clock, making lemonade and ice pops etc., accompanied by the explanation of the related science knowledge. Through reading it and doing the projects, children can learn more about science, technology, engineering, art and math through play.</p> <p>This book is educational, with colourful pictures, clear instructions and explanation. It is a super fun book that you may read and enjoy the activities with your parents, your siblings and your friends. Let's read and learn more about science now!</p>

老師好書推介-張淑霖老師分享

書名：	《未來是這樣嗎？不一定喔！》
作者：	吉竹伸介
出版社：	三采文化
分享對象：	P4-6 學生
圖書推介 原因：	<p>未來的世界會變成怎樣？你的未來又會是怎樣？你對自己的將來有甚麼憧憬和期待？</p> <p>書中的妹妹因聽到哥哥訴說着各種未來的想像而感到十分擔憂，於是奶奶與妹妹一起思考各種新奇有趣的可能性。最後，奶奶能夠成功為妹妹解開困惑。</p> <p>這個故事我特別推薦給高小的同學，即使現在的學業成績或升中派位結果未如理想，但是希望你們能從這個故事明白到未來是掌握在自己的手中，可以有各種的可能性。所以當你遇到挫折或困難時，請不要放棄，要繼續努力向前，為自己的未來創造更多可能性。</p>
